

Studiesoftware

Hvordan undgår man at Logic selv indsætter instrumenter når man laver et nyt spor?

Fjern fluebenet i "Open Library".
LPX

The screenshot shows the 'New Tracks' dialog box in Logic Pro. At the top, there are three tabs: 'Software Instrument', 'Audio', and 'Drummer'. The 'Audio' tab is selected. Below the tabs, there are two main sections: 'Input' and 'Output'. In the 'Input' section, the 'Input 1' dropdown is set to 'Input 1'. Below it, there are two checkboxes: 'Ascending' and 'Open Library'. The 'Open Library' checkbox is circled. In the 'Output' section, the 'Output 1 + 2' dropdown is set to 'Output 1 + 2'. Below it, there are three checkboxes: 'Ascending', 'Input Monitoring', and 'Record Enable'. At the bottom, there is a 'Number of tracks' field set to '1'. To the right of this field are 'Cancel' and 'Create' buttons. The 'Create' button is highlighted.

Tidl. version

The screenshot shows the 'New Tracks' dialog box. At the top, there is a title bar 'New Tracks'. Below it, there is a 'Number' field set to '1'. To the right of this field is a 'Multi-timbral' checkbox. Below the 'Number' field, there is a 'Type' section with three radio buttons: 'Audio', 'Software Instrument', and 'External MIDI'. The 'Software Instrument' radio button is selected. Below the 'Type' section, there is an 'Output' section with a dropdown menu set to 'Output 1-2' and an 'Ascending' checkbox. At the bottom, there is an 'Open Library' checkbox which is unchecked. To the right of this checkbox are 'Cancel' and 'Create' buttons. The 'Create' button is highlighted.
